FINANCIAL AND COMMERCIAL.

THUBSDAY, Oct. 21-6 P. M. Gold emerged to-day from its dulness and became guite active, the price at one time touching 131%, an advance for the day of one per cent, which, con idering the limited character of speculation in the Precious metal, is a rather remarkable change. The size was based upon the firmer tone of the foreign exchanges last night and at the opening of business this magning, the foreign hankers being large buyers this morning, the foreign bankers being large buyers of bills to cover the coupons of government bonds held abroad. Again, the action of the Gold Exchange Bank, in releasing 25 per cent of the moneys due to its customers, who for the most part rokers in the Gold Room, was instrumental in mabling many to resume dealings, and thus in a enabling many to resume dealings, and thus in a measure set the wheels of speculation in motion Once more. At the same time, as if by a sequence of this liquidation of indebtedness one, of the firms which were compelled to suspend in the gold panic paid the claims against them and resumed business. The receiver of the bank at the close of business to-day had paid twenty-five per cent of all claims except those originally thrown out and comprising was a reaction in the market and the price went of to 130%. The following shows the range of quota-

The money market was more active, and six and Seven per cent were the prevailing rates on call loans, although the government dealers were excep-

cionally supplied at five. There is a steady outflow of currency to the Southern States in exchange for the cotton crop, but the accumulation of capital is still so large at this centre that the effect is but slightly perceptible in the rates on call. The demand from the West is not active, although the grain movement continues, and the explanation probably lies in the fact that Western debtors are ending wheat to their Eastern creditors, the latter complaining of the difficulty of making collec-tions. The West is yet largely in debt to the East from last winter and spring, and the crops now coming are doubtless being shipped to meet these old claims. Hence the light remit tances of currency westward. While the rate on call is easy discounts are dult and prime paper can not be sold except at figures which would astound old time merchants. Some of the best endorsed dry goods paper went to-day at twelve per cent discount and the range takes the wide extremes of ten to fifteen per cent for the very best acceptances. Towards the close of the day there was less firmnes in the foreign exchanges, and although the nominal quotation for prime bankers' sixty day bills was 109%, sales took place at 109%. The rise in gold and the fail in the home price of government securities allows shipments of the latter to Europe, and the exchange market doubtiess feit the effect of the offerings of bond bills. The lower price for cotton, combined with the rise in gold, also nabled free exports of the staple and also contributed to the supply of bills. The government bought one million of bonds for the sinking fund, the whole lot being obtained at 115.20 "dat." The offerlags being over five millions assisted the decline anaugurated by the large offerings to the government yesterday, and as a consequence the whole market was lower, but steady at the new achedule f prices, as a consequence, in turn, of the firmer tone of the gold market. Southern securities were quiet, except for the Tennessees, which were steady, and the North Carolinas, which were actively weak

In the stock market there was during the fore-moon a maintenance of the high prices of yesterday, but after meridian the course of speculation changed, and under a pressure to realize the market broke down, the lowest prices being made after the last call of the board. The sales to realize were quite perceptible in the Vanderbilt stocks, New York Central going off from 194 to 196 %, and Harlem from 148 to 145. Lake Shore again absorbed a great deal of attention and ductuated between 93 and 94%. The meeting of the directors takes place to-morrow at Cleveland, and among the business to be discossed is the project of consolidation with the Wabash Rairroad. It was also rumored that the drectors were to receive a proposition from the New York Central Company for the release of the Lake Shore, but on what terms is not stated. Some color of truth is given this assertion by the fact that Commodore Vanderbilt and a party of New York Central men left Albany yesterday on a special train Central men left Albany yesterday on a special train for Cleveland. Eric continues to feel the depressing annuences of the strike on the road. In the Western railways St. Paul was active at 70%. In the miscellaneous list Pacific Mail'suddenly assumed buorancy and sold as high as 61% in consequence of negotiations said to be in progress with the Panama Railway Company for a new tariff of charges, which will inure to the benefit of the steamship line. The Lake Shore directors have contracted to seit two militons of bonds to meet any deficiency arising from the failure of Lockwood & Co. As the bonds are yet to be engraved they have sold contracts for them through the Union Trust Company. tracts for them through the Union Trust Company, the price obtained being eighty-five cents on the dollar. The bonds expire in ten years and are proyided for by a sinking fund of ten per cent annually

he special tax bonds going off to 43.
